**SINN FEINERS SURPRISED.**

**MILITARY KILL THIRTEEN ARMED MEN.**

**A TWO HOURS' FIGHT.**

LONDON, February 21.

A report issued by Military Headquarters, Dublin, states that a party of Hampshire surprised a body of armed men in a house near Middleton, Co. Cork, yesterday afternoon. Two hours' fighting resulted in thirteen armed men being killed and three wounded men being captured, also the capture of a number of service rifles and a quantity of ammunition and bombs. One soldier was slightly wounded.

**COWARDLY TACTICS.**

LONDON, February 21.

It is officially stated in Dublin that the police and military raided the headquarters of the Irish Republican Army and seized important documents. After revolver firing and bombing a motor car containing a party of auxiliaries in Dublin, Sinn Feiners took shelter behind women and children, firing through a living screen. Consequently, the auxiliaries were unable to retaliate.

**SHOCKING MURDERS.**

Sinn Feiners murdered two well-known Protestant farmers near Skibbereen in the presence of their wives.

Armed Sinn Feiners visited the infirmary at Cork and carried a wounded ex-soldier outside and shot him dead.

**HISTORIC CONFERENCES.**

**NEAR EAST AND REPARATIONS TO BE DISCUSSED.**

**FOREIGN DELEGATES ARRIVING.**

LONDON, February 21.

The stage is now set for the historic Near East and reparations conferences in London which it is hoped will result in a settlement of the principal remaining problems arising out of the war. Apart from the Belgian and Turkish Nationalist representatives, the latter of whom are coming to London from Rome, practically all the foreign delegations have now arrived. The French representatives, headed by M. Briand and including General Gouraud, and the Italian representatives, headed by Signor Sforza, the Foreign Minister, reached London last night. The Turkish Government delegates, and the Greek delegation, headed by the Premier, M. Kalogeropoulos, are also here, while M. Venizelos has returned to London from Paris. Mr. Lloyd George, and M. Briand had a cordial meeting at Victoria Station last night when it was arranged that Mr. Lloyd George, M. Briand, and Signor Sforza should hold a preliminary conference at Downing Street to-day.

**KNOTTY PROBLEMS.**

The official meeting with the Greek and Turkish delegates took place in the historic picture gallery at St. James's Palace. The conference is not expected to begin before Wednesday at the earliest in view of the necessity of the two Turkish delegations first coming to an agreement in order that they may appear together before the conference. The difficulties of the conference are exemplified by the fact that while Greece demands that the Treaty of Sevres should not be altered, France favours radical revision in favour of Turkey, including, it is understood, retrocession to Turkey by Greece of the whole of the Smyrna area, except, perhaps, the city of Smyrna, the fate of which it is suggested should be determined by plebiscite after a term of years.

**FRANCE AND REPARATIONS.**

February 21.

With regard to the reparations conference opening on March 3, it is emphasised in a message from Paris that the whole of France is determined not to tolerate further concessions to Germany and wants all doubts removed with regard to the enforcement of penalties in the event of German default. In this connection it is suggested that instead of occupying the Ruhr in such an event France might advance into Bavaria and that the recent speeches of Herr von Simons in South Germany inciting resistance to the Allies' demands can be attributed to this possibility.

**MANCHESTER FIRES.**

**DAMAGE TO STOCK-YARDS ESTIMATED AT £30,000.**

The Manchester fires numbered a dozen. The damage to stock-yards was £30,000. In one case the incendiaries fired shots at a farmer who refused to hold up his hands. Up to the present two arrests have been made.

**REPARATIONS HAGGLE.**

**WHAT FRANCE WOULD EXACT.**

BERLIN, February 20.

It is semi-officially stated that the amount of the war indemnity proposed by France to the Reparations Commission aggregates 218½ billion paper francs, at present equivalent to 66 billion gold marks.

**AMERICA AND JAPAN.**

**PRESIDENT-ELECT DEPLORES "LOOSE TALK."**

WASHINGTON, February 20.

According to a St. Augustine telegram to the Washington Post, President-elect Harding deprecates the "loose talk" concerning Japan, and hopes to remove the causes of friction between the two countries. Mr. Harding is reported to be considering the appointment of Mr. Henry Fletcher as Ambassador to Tokyo.

**GREEK OFFENSIVE POSTPONED.**

ROME, February 20.

A Smyrna telegram states that the Turks have apparently got wind of what is afoot by the extensive preparations. Consequently the Greek offensive has been postponed.

**NEW DUTCH EAST INDIES CURRENCY.**

LONDON, February 19th.

The *Financier's* Amsterdam correspondent says that the Government is considering the question of the appointment of a special committee to study the question of establishing a separate currency in the East India colonies. Mynheer Vissering, President of the Netherlands Bank, advocates the creation of an East Indian rupee for the Colonies.

**PEACE GUARANTEE.**

PARIS, February 19th.

M. Jules Cambon, President of the Ambassadors' Conference, lecturing at Brussels on "Europe of To-morrow" stated that the Franco-British Entente is throwing roots deeper every day, but each nation wishes to retain economic independence and individuality. M. Cambon recommended special agreements on specific cases rather than general agreements. M. Cambon wound up by declaring that the union of France, England and Belgium is the best guarantee for the peace of the world.—Havas.

**FRANCO-POLISH AGREEMENT.**

PARIS, February 20th.

Following a lengthy conference between M. Briand, Prince Sapieha, the Polish Foreign Minister, and General Sosnowski, the Polish Minister of War, it is announced that a Franco-Polish military and economic agreement has been practically reached.

**SUGAR DECONTROL.**

LONDON, February 19th.

**MR. SHAW'S LIBEL ACTION.**

AGAINST EDITOR AND PUBLISHER OF "FAR EASTERN REVIEW."

SHANGHAI, Feb. 20.

A petition has been filed for libel proceedings in the American Court in which Mr. Shaw, of Antung, claims \$50,000 each from Mr. Gallagher, the editor, and Mr. Bronson Rea, the publisher, of the *Far Eastern Review*. The plaintiff complains that the *Far Eastern Review*, in an article written by Mr. Gallagher, states that he (the plaintiff) is an Asiatic Sinn Feiner, an enemy of human progress, and an enemy of Great Britain and her allies.

**CATHOLIC BISHOPS.**

**FAR EASTERN MISSIONS.**

FORTHCOMING MEETING IN HONGKONG.

According to the Catholic magazine *Religion e Patria*, a meeting will take place next month in Nazareth, Palestine, of all the Bishops of the Missions Etrangères de Paris, throughout the Far East, for the purpose of modifying and altering the rules of the Society, which was established 300 years ago. Hongkong was chosen for the place of the meeting on account of its central position.

There are already about 30 prelates here from various parts, including Mons. Pozzoni, Bishop of Hakodate, a great admirer of the ancient Portuguese missionaries.

The Magazine further states that Mons. Pozzoni, availing himself of the presence of so many bishops, intends in accordance with the recommendation made by the Pope, to celebrate a solemn triduum in honour of St. Joseph on March 4, 5, and 6.

According to *Religion e Patria*, the Revd. Father Lynch has been invited to give a spiritual retreat here during the Holy Week. The magazine suggests that in view of the increasing number of Catholics it would be well to have two annual retreats, one in Portuguese in the Cathedral for the Portuguese community and the other in English, in St. Joseph's Church, for the English community.

## AMERICAN SHIPS.

## JAPANESE CRITICS.

THE NEW COMPETITION ON  
THE PACIFIC.According to the vernacular papers  
Japanese shipowners are not perturbed  
by the project of the United  
States Shipping Board to place twelve  
large passenger steamers on the  
Pacific run from the middle of next  
month under the companies which  
operate in connection with the Board.  
[The first ship, as a matter of fact,  
will probably arrive about the mid-  
dle of April.] The American ships,  
it is pointed out, cost more to run,  
owing to a higher wage bill, and are  
capitalized at a much higher figure.  
It is further pointed out that the  
provision of facilities for travel will  
not immediately produce travellers  
to take advantage of them. The  
Toyo Kisen Kaisha steamers are  
mentioned as a criterion, and it is  
pointed out that these ships, though  
always carrying seven or eight hun-  
dred passengers, cannot pay their way  
unless they are full of cargo as well.  
The case might have been put more  
strongly than this by mentioning  
that in spite of its subsidies the com-  
pany did not pay a dividend before  
the war. The Japanese Press asks  
how the American lines can pay at a  
time when only small cargoes are  
obtainable.So far, the criticism is quite fair,  
though it is open to the retort that  
lower expenses of running have  
never given the Japanese ships a  
monopoly on any line yet, and are  
hardly likely to do so now, when  
the difference between the running  
and capital costs of Japanese and  
foreign ships have been so greatly re-  
duced. The Japanese critic, however,  
goes on to make some quite unjusti-  
fiable remarks. A greater advantage  
he says, under which the American  
vessels labour is that shippers are  
unwilling to entrust them with their  
goods because, in the event of any  
accident, the American companies  
refuse to accept any responsibility,  
and the Shipping Board, if approached  
dodges about on points of law  
and wilfully prolongs the time before  
settlement. Therefore, the critic  
concludes, though the American  
passenger ships may compete for a  
time, they will find their difficulties  
increase as the year advances, and  
will at last be forced to retire, as the  
American line have done.Now to take the last sentence first,  
it is true that the Shipping Board  
has withdrawn some ships from one  
line, but the fact of putting on more  
and larger ships would appear to  
suggest that there was some other  
reason for the withdrawal than the  
despair of doing business. That,  
however, does not matter greatly,  
because the Shipping Board's policy  
of setting claims are more serious  
inquiries have to be made regarding  
the facts of shipment, when there isa shortage discovered, but the means  
of settlement exist in the Japanese  
ports, and there is no further avoid-  
able delay. Where there is some-  
thing disputable about the claim,  
however, there may be some delay,  
as the arrangements of the Shipping  
Board do not allow of the off-hand  
settlement of claims on a policy  
basis. The losses have to be well  
established for local and prompt  
settlement. But there have been  
some serious delays nevertheless.  
These delays have been due to the  
awful condition of the Customs com-  
pounds. During the boom goods  
were piled up, one shipment on top  
of another, and after nine months  
of depression, consignees are only  
now finding some of the materials  
imported. The doubt whether goods  
were lost under these mountains of  
landed cargo made it impossible to  
establish claims. We have heard of  
one typical case where the loss of a  
barrel of dyestuffs which had been  
stolen could not be established be-  
cause there were always quantities  
of barrels in the Customs sheds  
which might include the missing one.Most of the trouble, however, has  
been in respect of steel, and in some  
cases the delays in getting at steel  
shipments have been greater than in  
others, owing to certain firms having  
been specially privileged, however  
had the general congestion, with  
ample space for sorting. This dis-  
crimination really indicates only a  
failure to understand the needs of  
the port. In a port which receives  
such large shipments of steel as  
Kobe there ought to be the accom-  
modation for and system of sorting  
it that exists in Hongkong. The  
confusion resulting from the lack of  
this provision has caused great losses  
and delays.While much of the criticism of  
American ships appearing in the  
Japanese Press is malicious invention  
(we have referred on a previous  
occasion to the statement that the  
American ships could not get in-  
sured except at such rates as made  
competition with other ships im-  
possible), it remains true that there  
would be greater facilities if the  
companies were entirely on an in-  
dependent basis and not subject to  
the Shipping Board rules. The British  
lines had experience during the war  
of Board control, and they were very  
glad to be free from it as soon as  
the war was over—or as soon as they  
could make the Government under-  
stand that the war was over. There  
are reports of drastic reductions  
being contemplated in the selling  
prices of the emergency fleet ships,  
and a number of independent lines  
with a small capitalization would  
be able to do better work running  
entirely independently than can  
highly capitalized concerns directed  
from above and protected by Jones  
Act. Nobody can run on a com-  
mercial basis ships capitalized at the  
amounts which they cost in the  
sharpest stress of war-time, but on a  
moderate capitalization, with the rest

## BREATHING CHARACTER.

## FRENCH INVESTIGATIONS.

## JERKY MOVEMENTS A BAD SIGN.

Professor Maignot, a French phre-  
nologist, contends that by taking  
what resemble X-rays photographs of  
the movements of the diaphragm  
the membrane separating the lungs  
from the stomach and bowels) he  
can appraise a person's character.According to him, jerky movements  
indicate temper, loose morals, and a  
criminal bent. Long pauses between  
breaths show a slow intellect.  
Lecturing to the Paris Medical  
Society Professor Maignot described  
how he picked out a soldier  
from a crowd and persuaded  
him to undergo a test. The sub-  
sequent examination pointed to ex-  
ceptional courage and a marked  
criminal streak. When the  
soldier's papers were inspected  
it was found that he had been sen-  
tenced for various crimes more than  
a dozen times while he had also won  
medals at the front.SINGAPORE'S NEW  
STATION.

## WORK COMMENCED.

## ELABORATE HOTEL PLANNED.

Preliminary excavation is now  
proceeding in connection with the  
building of a new railway station  
and a station hotel for Singapore.  
The work is an extensive one, and  
the Straits Times understands that it  
is not expected to be completed be-  
fore about three years, by which  
time the Johore Causeway will be  
completed and trains from Kuala  
Lumpur will run right through into  
Singapore terminus worthy of the  
city. The line will, it is understood,  
run beyond the present Tank Road  
station around Fort Canning Hill to  
a terminus much closer to the centre  
of the town. The station hotel is  
being planned on an elaborate scale,  
and will be one of the finest in the  
East.properly written off as war expen-  
diture, there would be a fair oppor-  
tunity for all on an open competitive  
basis. Nothing more should be sought  
or granted but this. But if the Ship-  
ping Board tries to maintain fancy  
prices on its ships by means of legisla-  
tion it will probably find that it has  
only aggravated the deterioration in  
working value.—Japan Chronicle.

## THE PREVALENT MANIA.

It is considered by the learned Hume to be established as a certain maxim that in all moral as well as natural phenomena, wherever the cause consists of a number of parts, and the effect increases or diminishes, according to the variation of that number, the effect, properly speaking, is a compounded one, and arises from the union of the several effects that proceed from each part of the cause. Inasmuch as the cause at fanian consists of an unvarying number of digits grasping a varying number of cash, and as the effects are generally as we find them, it is to be concluded that David knew not this particular phenomenon. Nor can we be accused of assuming too much if we add that he was probably similarly unaware of cash sweeps and club sweeps, such as appear to be in full possession of the minds of most people here this week.

In view of our ordinance prohibiting gambling, and of the frequent prosecutions of petty offenders against it, there is something humorous in the open extent to which this "vice" is just now being indulged. If there is a club that hasn't a "sweep" with tie-

drawn into a "fetter," maintain an even pulse, and miss the zest of it.

So it might be argued on these lines that the majority of people who have been buying sweep tickets lately are not gambling. They can afford what they have spent, and if they get no monetary return, will not feel it. They take a chance or chances in a cold-blooded sort of way to win, and are not hurt if they lose. As for the actual penny races which help to decide whether they win or lose, many of them will not even see them.

Then why mention the matter at all? For one thing it is Race Week, and some notice of that must be taken, if we would be in the swim at all. Then again, as a local poet said some time ago:

If you've never heard tell of the Mph-Mph.  
The interest's likely to pall;  
But it's past contravening you'll not get the meaning.  
For there's not any meaning at all.

However, there is one way of importing a meaning that each reader will readily take to heart. It is revealed in a couple of words. Good luck.

## LOCAL AND GENERAL.

A non-fatal case of small-pox, Chinese, was reported on Saturday.

Members of the Helena May Institute and their friends are reminded that the Bishop of Victoria will give an address at the Institute to-morrow, Tuesday, February 22.

The total output of the Kailan Mining Administration's mines for the week ending February 5, 1921, amounted to 31,812 tons and the sale during the period, to 62,762 tons.

On Pokfulam Road yesterday afternoon, a Chinese woman was knocked down by motor car No. 145. The woman, who received a compound fracture of the leg, was removed to hospital in the car which knocked her down.

About 2 a.m., yesterday a small fire broke out in a farmer's matchbox at Lanchun Valley, Leungpai, in the Taipo district. The matchbox was completely gutted. The extent of the damage done and the origin of the outbreak are unknown. The property was not insured.

St. Andrew's Church Men's Association has arranged to hold a debate in the Church Hall on Wednesday, February 23 to be opened at 8.45 p.m. The subject to be debated upon is "Is Great Britain on the decline?" All members and their friends are invited to attend.

The end of the lunar year has been disastrous for cotton yarn merchants of Tientsin. The losses of dealers in Japanese yarn came to \$11,000,000, and those dealing in other foreign yarn incurred losses double this amount. A number of native banks have consequently gone bankrupt.

More than \$3,000,000 is due to the United States Government in unpaid income taxes from American citizens residing in the Philippines, according to Salvatore Romano, Federal income tax official of Honolulu, who was in Manila recently to conduct an investigation of the income tax situation there.

Prof. C. H. Robertson, scientist of Shanghai is in Hongkong this week and will deliver lectures each afternoon and evening on the subject of "Wireless Telegraphy." These lectures will be held in the Chinese Y.M.C.A. auditorium, 71 Bridges Street, and will be free of any charge. Complete technical apparatus will be used to illustrate the subject. The public is invited to hear this interesting lecture which will be delivered in both English and Chinese. Prof. Robertson will be remembered by many of our citizens as he was here several years ago and gave lectures on the "Gyroscope."

## HUNGRY MAN'S UNUSUAL ACTION.

Driven to jail by hunger was the plight of a half-starved Chinese who was this morning charged before Magistrate Orme, at the instance of Sub-Inspector Ogg of the Yaumati Police Station with having returned from banishment.

The accused, who admitted the offence, said that he had to come back because he could not find work in the country and was starving.

Inspector Ogg said that the accused gave himself up to the police. Remarking that wholesome food in the jail would restore the accused's physique, the Magistrate passed sentence of six months' hard labour.

SHANGHAI, Feb. 21. The deadlock continues relative to the appointment of the Chinese advisory committee to the Municipal Council, the latter not receding from its stand, namely that the advisory committee is not subject to the orders of the controlling supervisory body of 22 persons. The Chinese Ratepayers' Association, which is obviously becoming restive, misconstruing the Council's attitude as obstructiveness, intends to hold a general meeting of Chinese ratepayers to decide what action should be taken. The Council is adamant and resolved not to tolerate dual control.

## ACCUSED DISCHARGED WITHOUT EXPLANATION.

Yesterday a Chinese revenue officer who boarded a cargo junk in the harbour to search for contraband, discovered 3,900 taels of prepared non-Government opium, valued at over \$50,000. The drug was seized and the master of the junk arrested.

This morning when the case was called at the Magistrate's, the prosecution asked for permission to withdraw the charge. The reason for this was given, excepting that the application was made on instruction. The accused was discharged; but the drug was confiscated.

## FAMINE RELIEF.

## SPECIAL DAY OF PRAYER.

## CHURCH SERVICES YESTERDAY.

Yesterday was a special Day of Prayer for the success of the drive to obtain funds for relief in North China, and—as in other European communities in China—the collections at a majority of the services in Hongkong were donated to the relief funds.

The Bishop of Victoria made reference to the appeal and the need, both at the morning service at St. John's Cathedral, and at the evening service at St. Andrew's, Kowloon.

The Rev. G. R. Lindsay preached at St. Andrew's in the morning. H. E. the Governor was present. There was an appropriate address by the Rev. J. Kirk Macdonald, at Union Church, and a special service at St. Stephen's Church.

At the morning service in St. John's Cathedral, before delivering his sermon, the Bishop of Victoria spoke of the appeal. He said it was plain that the fund was wholly inadequate to meet the situation. The Bishop reminded the congregation of a telegram received by His Excellency the Governor from H. M. Minister at Peking last month: "Many thanks for Government grants for famine relief. Millions are facing starvation. Available funds totally inadequate, and position now desperate. \$10 saves a life." Proceeding, the Bishop read an extract from a letter received only two days ago from the Famine Committee, Peking: "Sending millions home to die is the action that is being forced upon relief agencies in every part of the Republic. With an estimated population of 25 million persons facing starvation and with funds and supplies that cannot save more than two millions, famine workers are daily turning whole families away from relief stations—sending them home to die; and deaths from actual starvation do not include all the casualties. Famine fever and famine dropsy are appearing. Typhus is inevitable in the spring. In addition to this there is the added terror of the sale of women and children. Everywhere there is starvation, menace of death by disease, sales of girls and women, torturing, cold, suicides and bandits." The Bishop said he need hardly say any more by way of appeal. He would only add that if any outside the Cathedral were able to respond, money sent to the Colonial Treasurer would be remitted by telegram to His Majesty's Minister at Peking.

## OBITUARY.

## MR. WILLIAM MCGRANN.

Mr. William McGrann, the keeper of the Peak Signal Station, died on Saturday morning at the Government Civil Hospital. The news that he had passed away came as a great shock to his many friends. He was 70 years of age, and for fifteen years had been in the service of the Harbour Department; consequently he was widely known, and by reason of his cordial and courteous nature, was very popular.

Mr. McGrann was apparently in good health until January 5, when he became ill of nephritis and entered the hospital. He failed to make progress, and the end came on Saturday morning about 5 o'clock.

He first came to Hongkong on H. M. S. "Meane," which he left, after twelve years' naval service, to take employment with the Canadian Pacific Railway Company. Later he returned to the "Meane" as keeper and after the ship was dismantled, became associated with the Harbour Office.

The funeral took place yesterday afternoon at Happy Valley, in the presence of a large company of mourners. The Rev. Fr. Augustine officiated in the Chapel and at the graveside, referring eloquently to the character of the deceased. There were present many officials of the Harbour Office, ships' captains, and friends, and many beautiful wreaths were deposited on the grave.

Mr. McGrann left a widow; a son, Mr. Allan McGrann; and a daughter, Miss Minnie McGrann. They were the chief mourners, and with them were Lt.-Com. Cunway Hake, R.N., acting Harbour Master, Boarding Officers Mulver, Thomson, McKay, Leigh and Taylor, Captain Brown, Captain Willcott, Captain Deme and Captain Walker, Messrs. W. Blakestone Hind, Sirdar Khan, Victor East, M. T. Blake and R. S. Vergeite, Junk Inspectors R. L. Rocha and A. Delgado with their staffs of Chinese boatmen. The coffin was carried to the grave by Messrs W. Pope, T. P. O'Sullivan, D. J. F. Cronin, L. H. Brown, Cooper and Sergeant Kerrison.

## CRIMINAL SESSION.

## TRIALS IN TWO COURTS.

## ARMED ROBBERIES.

Criminal Sessions were held this morning by both the Acting Chief Justice, Mr. Justice Gompertz, and the Puisne Judge, Mr. Justice Wood. Before the Acting Chief Justice five men, Wu Chak, Chan Fat Wing, Lau Tsi, Wu Pak Chin, and Lun Yun were charged with robbery on January 15, in stealing from Leung Shi and others a quantity of money, blankets, clothing, boxes and jewellery.

The defendants pleaded not guilty. Mr. Dyer Ball, assistant Crown Solicitor, prosecuted. Mr. F. C. Jenkin, instructed by Mr. Mason, appeared for the fifth defendant, Lun Yun. A separate trial was provided for this defendant and proceeded with, the trial of the remaining four defendants being deferred until its conclusion.

The following jury was empanelled: Messrs. W. L. Marshall, C. I. da Rosa, W. J. Ratay, Ho Leung, A. Edwards, O. A. de Carvalho, and I. Rocha.

Mr. Dyer Ball, outlining the case, said that the defendant was charged with robbery in company with four others in a house occupied by four Chinese women. The men entered the house early in the morning, saying they were searching for illicit opium. The men were armed with revolvers, and a dagger was found on the floor after they left. They forced the women into a cubicle and there detained them. After the men had gathered the goods they wanted, they called the women out of the cubicle, bound them and gagged them with sugar cane. They then left. The women released themselves an hour later and notified the police.

The defendant had been a watchman in that neighbourhood. Most of the property recovered was found in a house on a street on which he was seen. He had made a statement when arrested, that he had assisted in planning the robbery and had seen the men.

As the case proceeded, Mr. Jenkin brought out that the defendant alleged the admission he had made had been obtained from him by violence; that several Chinese detectives had beaten him at No. 7 Police Station and compelled him to make the statement. Because of the seriousness of the allegation, the question was taken up fully, and the entire hearing this morning was given over to interrogation of the detectives accused and the examination of other witnesses on the subject.

C. 213, a Crown Sergeant, was pointed out by the prisoner as a detective who had beaten him. He denied it fully. Mr. Jenkin called him over to look at the left hand of the prisoner, which bore marks of an injury.

Mr. Jenkin: I put it to you that that injured thumb is the result of a beating at No. 7 Police Station. Witness: I know nothing about it.

He denied also that he had ever heard of a prisoner being beaten at No. 7 Station.

Two other detectives, C236 and C35 gave similar testimony. Both of them also were pointed out by the prisoner as men who had either been present when the beating took place, or had taken part in administering it.

Sub-Inspector Wills of No. 7 Police Station said that in his opinion the beating could not have happened.

It was then discovered that the prisoner meant to allege that he had been taken from his cell to the Chinese detectives' room, and there beaten, and that it did not occur in his cell, as had been at first supposed. Mr. Jenkin explained that he had not had an opportunity to be fully instructed, and that as a matter of fact he was getting his instructions from the dock as the case was proceeding. His Lordship then, with a remark that he thought they ought to go to the bottom of the matter, adjourned the Court for fifteen minutes to allow Mr. Jenkin to confer with the prisoner.

When the Court opened again, Mr. Jenkin re-called the detectives and questioned them on the prisoner's story that he had been beaten about 5.10 on the morning of the 15th, and on the following day, Sunday, had been taken into the Chinese detectives' room, about 2 p.m., and again beaten. They denied every word of the story.

Sub-Inspector Wills, re-called, said in answer to questions that it would not be possible for detectives to get the keys to take the prisoner from his cell, without authority, and further that the Chinese detectives' room, in which the assault is said to have occurred, is situated across a passage from the Charge Room, with only swinging doors, open top and bottom, and that there is always a European officer in charge. The hearing was resumed this afternoon.

Before the Puisne Judge, Mr. Justice Wood, Tai Yau Lun and Pang Yau Fuk were charged with assault with intent to rob. The offence took place on January 15.

The prisoners pleaded not guilty. The following jury was empanelled: Mr. T. Palmer, A. L. du Bois, J. P. Braga, F. A. M. Rosario, Wong Ping Shun, James Dinkler and B. W. Tait. Mr. Wakeman, Crown Solicitor, outlining the case, said that on the night of January 15 Chan Loy, a

## "SPIRIT SEANCES" NIGHTLY.

"The Blood Barrier," a thrilling 6-part drama, featuring Sylvia Breamer, and Major Trevor, is the leading attraction at the Hongkong Theatre. During the week, commencing to-night, the mysterious "Orville" is giving a series of spirit seances, including "weird manifestations, such as the lifting of tables, the appearance of spirit faces, and the receipt of sealed messages from the dead." Among other strange things, musical instruments will be played by unseen hands, and fresh flowers from the spirit world will be passed to the audience. During the seance "Orville" will answer any and all questions the light by the audience and will cause minds to concentrate upon one thought at the same time.

## COMPRADORE SYSTEM.

## "NEFARIOUS SYSTEM."

## ANOTHER PARTINGTON ARTICLE.

In the course of an article in *The Financier* on "Openings in China," Mr. Thos. Bowen Partington, of Hongkong, discusses the Compradore System, explaining in detail how it works. His conclusions he states as follows:—"The system is nefarious, and should be destroyed. It makes for very inefficient management, prevents intimate relations between Chinese and foreigners, is an unnecessary superstructure on the organisation of business, and it has strengthened a class of men who are not sufficiently educated to understand how to use their money to the advantage of themselves and their country."

On the whole, it is one of the greatest impediments to the development of China, and both Chinese and progressive foreigners are working out plans for doing away with it. Neither the Standard Oil Co. of New York nor the British-American Tobacco Co. use compradores, and both organisations extend credit to Chinese. The average exporter and importer is, however, afraid of a system which does him infinite ultimate harm. Several firms in Shanghai have instituted a movement to establish a credit system which would deal a death blow to the compradore, but in the present disorganised state of the country its introduction would be attended by many uncertainties.

farmer living in a village in the New Territories heard the noise, and found that men were breaking in the door of his house. He seized a bamboo carrying pole and hit at one of the men. A hand came through the opening, with a revolver. He pushed it aside. It was discharged, and the bullet entered the wall of the house. He notified the police, and these two men were later arrested.

When they were charged at the Police Court, both admitted having taken part in the robbery. Subsequently, before the Magistrate, they said they had nothing to add. Chan Loy told the story of the robbery. He said the men had a torch with them, which they threw in the room. The bamboo pole with which he fought them off was produced in Court. It was a formidable weapon, being shod with iron and pointed at the end.

At the conclusion of the testimony the Court told the jury that the case against the second prisoner was solely and entirely the statement he had made. He had made it twice.

The jury retired and returned with a verdict of guilty against both prisoners, the first unanimously, the second by 6 to 1. The Court sentenced them each to seven years' hard labour and ten strokes of the Cat.

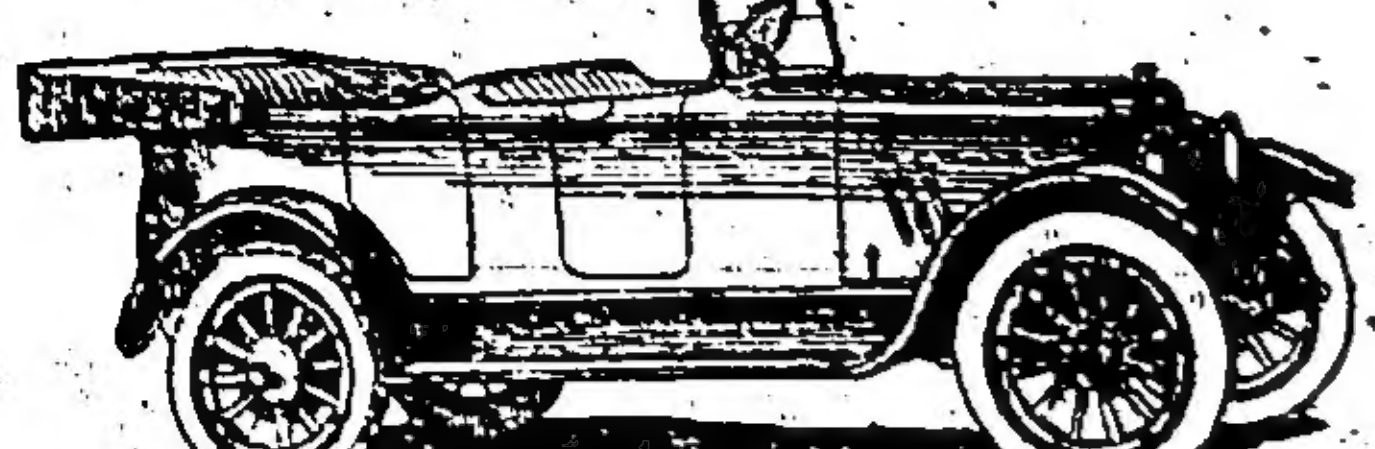

In Cheung was charged with having been found in the building at 215 Reclamation Street, Yaumati, at night, with intent to commit a felony. The offence occurred on December 27. The property is a fire cracker shop. The prisoner pleaded not guilty.

## GHOST SHIPS.

NEW ENGLAND LEGENDS.

FAMOUS SPECTRE SHIPS.

The coast of New England has many legends concerning spectre ships firmly believed by the rugged fishermen, who assert stoutly that on various occasions glimpses of the shadowy craft have been seen, followed by disaster.

The spectre of the "Palentine" is occasionally seen on the Sound, and is the harbinger of a gale. She was a Dutch trading vessel and was wrecked off Block Island in 1752. The wreckers, it is said, made short work of her, stripping her fore and aft and setting fire to the hull.

As she drifted blazing off the coast a human form was visible amid the flames, the form of a woman passenger, left to perish on the doomed craft. Since, and generally upon the anniversary of the wreck, a phantom ship with blazing hull, charred spars and scorched sail and rigging has been cruising off Block Island.

Whittier recorded the legend in graceful verse, as well as that of a ghostly cruiser that sailed from a New England port on her last voyage, which he termed "The Dead Ship of Salem."

In the seventeenth century a ship was about to sail from Salem, Mass., to England. Her cargo was on board, sails bent and passengers on deck, when two strangers came hurriedly on board and engaged passage. The couple were a young man and a young woman, who, tradition records, were remarkable for their bearing and beauty.

Who they were or whence they came no one in Salem could tell. The ship being detained by adverse winds, the mysterious couple excited the suspicions of the townspeople, who viewed them as uncanny and prophesied disaster to the vessel if they were allowed to sail on her. But the master, a gruff and stern sailor, refused to listen, and finally departed on a Friday.

The vessel never reached her destination and was never spoken, but later in the year incoming vessels reported sighting a craft with luminous rigging and sails and shining hull and spars. She was sailing with all canvas set against the wind, with a crew of dead men standing in the shrouds and leaning over the rail, while on the quarter deck stood a young and beautiful couple.

It is said that the French fishermen from the Magdalen Islands and the matter of fact Yankee skippers of Bangor, Me., alike shun the shores of Bay Chaleur after dark and refuse to put in at Dead Man's Cove under any circumstances, preferring to run the risk of foundering in a hurricane in the open sea to sharing the shelter of the cove with the phantom ship.

This famous spectre of the sea is said to appear only in the calm preceding a great storm, with every stitch of canvas drawing and her decks swarming with men, all running to and fro as if in a panic. Ahead of her the water is like glass; behind her the gale comes tearing along, beating the sea into froth and driving her straight on through everything in her way. She is an ancient model, full rigged and gray all over—hull, upper works, sails and spars—as if formed of fog. Gray, too, is her ghastly crew.

The inhabitants of St. Pierre tell of a smack on a herring trip that found herself right in the track of the phantom ship. Captain and crew had heard of the ghostly vessel, but scoffed at it, and when they saw her loom up in the twilight straight ahead they thought a collision imminent and the startled steersman put the helm over.

The sea wrath swept down upon them, and in the space of a breath had passed right through them and was racing madly astern in the direction of Dead Man's Cove.

A fishing schooner from Magdalen Island warned by the thickening sky of an approaching storm, put in at the cove to ride out the gale. Before she had reached anchorage a ship was seen coming rapidly behind, also heading for the cove. As it drew near the captain got out his glass to see if he knew the stranger. Suddenly he dropped to his knees and commenced to pray. "Boys," he said, "it's a ghost. I saw a sea gull fly right through her mainsail!"

Every man threw himself on his face, afraid to look. The first to raise his head and look over the rail was the cabin boy. "Oh, get up; get up, all of you," he shouted, "she's gone." The crew lost no time in making sail out of the cove in the teeth of a black squall.

Another story (says *The New York Herald*) is that of a smack from St. Pierre which saw the phantom anchored just inside the cove at sunset. A small boat filled with men was making trips between the gray ship and the beach, at each trip unloading boxes and barrels, which other men waiting ashore buried in the sand. The captain did not wait to see whether they were interring dead men or chests of treasure, but got away from the place as fast as he could.

Old sailors along the Maine coast firmly believe that the phantom ship is an old merchantman that went down with all on board trying to reach the cove in a great storm in 1784; but at St. Pierre the fishermen will tell you that it is a pirate haunting the spot where the buccaneer crew hid the treasure for which they lost their souls.

## HUMANITY'S CRADLE.

THE OLDEST MAN.

MALAYA TO BE SEARCHED.

The *Manila Times* says:—Some time during the present year there will come to the Philippines an expedition that has been organized to search Asia from the farthest north to the farthest south, and from the extreme east to the extreme west for the oldest man.

Rightly or wrongly scientists have generally assumed that the cradle of the human race was in the East—in Asia, and there is a very general belief in these days, that it was in the great central Asia plateau north of the Himalayas that man first originated. The American Museum of Natural History, in co-operation with the American Asiatic Association, is organizing a great expedition to carry on scientific work in the Asiatic continent. This will be the largest and most comprehensive expedition ever sent out on such a quest. According to an announcement made by its organizer a special study will be made of the living aboriginal inhabitants, and the remnants of prehistoric tribes as well as of the geography and paleontology and the mammal birds, fish and reptiles. By such means it is hoped to obtain new facts relating to the origin, development and migrations of the human race.

The basic theory to be on is that prehistoric man was hunter and that as the animals, birds and fish he hunted travelled from continent to continent, man travelled also and thus became scattered all over the then known world. Such fossils of prehistoric animals have been found in Central Asia and in China as to lead to the belief that the human species must be as ancient as are the fossils and therefore the most ancient known.

There still exists in China a tribe known as the Lolo who maintain an independent territory in Szechuan, one of the richest and most populous provinces of China. These Lolo are somewhat on a par with the wildest of the Negritos of the Philippines in that they are very zealous of their independent existence. No Chinese is permitted to cross the borders of their kingdom, and attempts to do so invariably terminate in death. Lolo who venture forth into the neighbouring territory will at times be captured, and in retaliation the Lolo, a few nights later, will attack and burn an entire Chinese village, kill the men and carry the women into captivity. French explorers who have managed to work themselves into the good graces of the Lolo report them to be a charming people of hospitable temperament and high mentality. They are a people of great simplicity and remarkable in their native courtesy. They are totally different to the Chinese and show marked indications of Caucasian blood.

Little exploration has been done in this region of Asia on account of its remoteness and the difficulty of access, both of which make such labour enormously expensive. Chinese superstitions as to the ground are another great obstacle. The *few-shui* or spirits of the earth, wind and water, have to be contended with. The American Museum of Natural History sent out expeditions for work in Asia in 1916-1917, and in 1919. They first visited Yunnan and obtained there 3,000 mammals as well as many birds, reptiles and batrachians. The second expedition of 1919 extended work to Mongolia and northern China and obtained a large number of specimens. As a result of these expeditions and that now organized it is expected that New York will become within the next ten years, the seat of the most important natural history collections of Asia in the world. The expedition will commence its Eastern search from the Pacific coast. Arriving at Yokohama one section travels to Formosa, the Philippines, Borneo and the Dutch East Indies, returning to the Philippines en route to Hongkong where it will meet the rest of the expedition that will carry on its investigations in China and Mongolia. The work will then be pushed both north and south, north through Siberia and Russia to Petrograd and Stockholm and south through Singapore, Colombo, India, Tibet, Arabia to Cairo.

Little exploration has been done in this region of Asia on account of its remoteness and the difficulty of access, both of which make such labour enormously expensive. Chinese superstitions as to the ground are another great obstacle. The *few-shui* or spirits of the earth, wind and water, have to be contended with. The American Museum of Natural History sent out expeditions for work in Asia in 1916-1917, and in 1919. They first visited Yunnan and obtained there 3,000 mammals as well as many birds, reptiles and batrachians. The second expedition of 1919 extended work to Mongolia and northern China and obtained a large number of specimens. As a result of these expeditions and that now organized it is expected that New York will become within the next ten years, the seat of the most important natural history collections of Asia in the world. The expedition will commence its Eastern search from the Pacific coast. Arriving at Yokohama one section travels to Formosa, the Philippines, Borneo and the Dutch East Indies, returning to the Philippines en route to Hongkong where it will meet the rest of the expedition that will carry on its investigations in China and Mongolia. The work will then be pushed both north and south, north through Siberia and Russia to Petrograd and Stockholm and south through Singapore, Colombo, India, Tibet, Arabia to Cairo.

The high steppes of the Tibetan plateau, the sandy wastes of the Gobi desert, the snow covered peaks of the Himalayas, the dense forests of the Malayan peninsula and the semi-tropical jungles of the Southern China are expected to offer some valuable specimens of animal, bird, mammal, reptile as well as of human life.

## FUNERAL.

MR. JAMES MACDONALD.

The funeral of the late Mr. James Macdonald, for many years Government Marine Surveyor in Hongkong, will take place to-morrow at Happy Valley, passing the monument at 5 p.m.

Mr. Macdonald died recently in Australia while on a trip taken for his health, and his body is expected here to-day. It will be interred in the section reserved for old Civil Servants. Mr. Macdonald was in Hongkong for more than thirty years, and had a very wide circle of friends. Consequently there will undoubtedly be a large attendance at the funeral.

Among the passengers due in Hongkong by the P. & O. s.s. "Karnata" to-morrow is Mrs. Drummond, wife of Mr. W. H. Drummond, the barrister. Mrs. Drummond is a daughter of the late Sir Edmund Grimani Hornby, formerly judge of the Supreme Court in Constantinople and afterwards First Chief Justice of the Supreme Court for China and Japan at Shanghai and Korea respectively.

## MODERN MAN'S TOILET.

TANITY INCREASING.

TOO LOVELY FOR WORK.

Is modern man becoming more vain?

The increasing tendency of the "shave-and-brush-up" shop to develop into a beauty parlour seems to afford affirmative evidence.

The number of men who come in for a shave and nothing but a shave, is very small nowadays. A West-end barber told a Daily Chronicle representative.

"They want something more than that, and I can assure you the modern man's toilet is a very comprehensive affair. That is why I have to employ a couple of trained manicurists, and why all my assistants have to be artists in massage and the use of the hot towel."

"My business would lose 'tone,' and I should lose custom if I did not keep constantly on view a dainty array of face creams and powders and prettily-coloured preparations for the hair. The successful business man of to-day must be well groomed, and it is our business to see that he is."

A City man said: "There is all the difference in the world between a well-groomed man and a fop. I require my clerks to be clean and neat, and properly shaved but if needn't go any further than that."

## SPORT.

## SATURDAY'S FOOTBALL.

HONGKONG "SHIELD"  
COMPETITION.

The "Shield" match between the R.G.A. and the Hongkong Club, which was won by the former team with two goals to one, was played on the Club ground on Saturday afternoon in the presence of a large crowd. The Club faced the sun. After some brisk opening play, a foul throw-in gave the Club its chance. During a melee near the R.G.A. goal, Donovan was penalised for hands. At a later stage, Bagg having been fouled by Donovan, Ralston took the kick and placed the ball in the goal mouth where Kuhn ran in and scored the first goal of the game with a fast shot. Some few minutes later Lawrence was forced by Watson to kick out. The ball having been well placed by Wilson who took the kick, a high shot by Best brought the scores one all, at which figure they remained until half time.

In the second half the R.G.A. attacked. Some interesting play saw the ball cleared to the other end, but the R.G.A. again returned to the attack and Donovan narrowly missed scoring with a shot that just skimmed over the bar and another high shot which Rodger just managed to tip over the bar. From the right Wilson passed to McHugh who put in the shot that gave the R.G.A. the goal that was to win them the match. Following this, play was uniformly swift, the Club playing hard for an equaliser. Frampton having been forced by Hamilton to kick behind, the corner kick was giving Holloway some difficulty when Donovan cleared in the nick of time. Mr. Williams was referee of a very evenly contested game.

## ST. JOSEPH'S v. KOWLOON.

Playing on the College ground, St. Joseph's beat Kowloon by the odd goal to three. At the opening, Kowloon took the offensive, but the ball having been promptly transferred to the other end, Hyndman opened the score for St. Joseph's with a ground shot. With play consistently brisk, both ends of the field were visited in quick succession until Townsend equalised with a fast shot from a centre from Taylor. Further interesting play, in the course of which a header by Mair just slipped across the top of the bar, brought half time with the score sheet reading one all.

In the second half, a creditable dash by Taylor having ended in a wide, a corner forced at the other end by the College was taken by Robinson who placed the ball in the goal mouth where Knight had the misfortune to put it in his own goal. After this, Kowloon missed a penalty, Knight striking the crossbar. They continued to press with great determination but their luck seemed to be consistently against them and the final whistle came with the College, lucky winners of a fast game. Mr. Cheesley was the referee.

## "TITANIA" v. SOUTH CHINA.

These teams played a very fast and close game in connection with the Hongkong "Shield" Competition on the South China ground on Saturday, before the usual large crowd of Chinese spectators.

The match opened even but after about five minutes of midfield play the Sailors got away, and a well combined attack was only partly checked by the Chinese defence. In a melee in front of goal Piles received and netted. From the centre the

Chinese went down. Hutchley and Mapleson misunderstood each other's moves and the alert Chinese centre-forward equalised. Half time: 1-1.

The Sailors had the best of the exchanges at the resumption, and were all out to take the lead. The Chinese defended well, Chan So being in particularly good form. Keeping up the pressure for a good while the Sailors were at last rewarded Hendry finding the net with a fast shot which one of the defenders headed though he did not succeed in deflecting the ball. The Chinese worked hard for the equalizer after this, but soon were tired out, and when the final whistle came the Sailors were the winners by the odd goal in three.

## LEAGUE 1st DIVISION.

## WILTS. v. "TAMAR"

This match, played in connection with the 1st division of the Hongkong League, proved to be one of the best week-end games.

The "Tamar" attacked first. Millington missed the net by inches from a good pass from Heap. They forced a corner but Lancaster headed away. After a spell at midfield the Soldiers went away and Amor missed a good opening. Play continued to be even for a long while, both ends being visited in quick succession. Mitch was called upon to stop many difficult shots, which he did in convincing style. Half time arrived with the score sheet blank.

The Sailors attacked at the resumption, and after being pulled up for off-side, came back and forced a corner. Smith trapped and sent Amor away. He missed a good close range shot. The Sailors came back, but Giles sent wide. After several disappointments, the Sailors swarmed the goal. Grant sent in from long range. Trivett mis-kicked and Heap got possession. He dropped Smith with a hard shot, and before the goalie could recover his feet, Topping scored. The Soldiers attacked but missed. When they returned they were awarded a penalty for hands and Amor equalised. The Wills continued the pressure but could not score. The final whistle came with the score reading 1-1.

## LEAGUE 2ND DIVISION.

## UNITED v. CLUB.

The Club started the game with ten men. United pressed from the opening whistle. Brown missed a good opening. The Club continued on the defence, and a few minutes later Brown made amends by breaking through and scoring. Blake missed by inches soon afterwards. At half time United led 1-0.

Immediately from the centre in the second half United got in and Brown scored again. The Club rallied and for the first time became dangerous. United defended well but the attack was determined and soon Watson scored. Encouraged, the Club renewed their efforts but got no chance. In the closing few minutes of the game United attacked and Groot had a lot to do. Result: United, 2; Club, 1.

## KOWLOON v. INDIANS.

The Indians kicked off with the wind in their favour, but in spite of this handicap, Kowloon was soon in enemy territory. The ball, however, went wide. After a strenuous struggle in midfield, the Indians broke away and forced a corner. The pressure was relieved by a foul given against the attackers. From this kick Mason went down and scored. The Indians missed a good chance and then Kowloon came back and Mason scored their second goal. Half time: Kowloon led 2-0.

Resuming, the Indians played better but failed to allow for the wind, and strong kicking sent the ball wide. Eventually they forced a corner and scored from the melee which followed. Kowloon did not like the prospect of the draw which was threatening, and opening out, went away. The Indian goal was subjected to a hot bombardment, and a goal at last resulted. The whistle came with the Indians working hard, especially the defence who did wonders. The better team won. Result: Kowloon 3; Indians 1.

## R.G.A. v. PUNJABIS.

The Artillerymen were too strong for their opponents and did very much as they liked, goals coming with discouraging regularity. In spite of this, the Punjabis played up very sportingly as usual and contested every minute of the play. They paid several visits to the Artillery goal but their shooting was faulty and they could not score. The Artillerymen scored 4 goals in the first half and 3 in the other and retired winners by seven goals to nil.

## LEAGUE CRICKET.

## K.C.C. v. R.G.A.

An even match in which some good batting was witnessed was played between the above teams on Saturday. Kowloon batted first with Bragg and Stapleton at the wickets. Bragg was dismissed after compiling a pretty 16, and then Stapleton was joined by Robinson who also reached double figures (13) before he was bowled out. A lot set in with three batsmen who followed. They were dismissed for 1, 2 and 0 respectively. Evans kept his end up and contributed a useful 15. Brawn followed with 5 (not out). With the score reading 186, of which Mr. Extras was responsible for 12, Kowloon declared for the loss of six wickets. Stapleton carried his bat right through the innings, and with a well compiled 122, had the credit of scoring more than half of his side's total. Lieut. Chester and Sgt. Stevens opened the Artillery's innings but they were both dismissed early for 6 and 10 respectively. Lieut. Graham contributed another 5 and Major Bagnall was caught after scoring 13 just when he seemed set and good enough for half a century. Barward stopped the rot and by means of careful batting collected a very useful 67. Smith and Cowsens also kept their ends up and managed to reach double figures—10 and 28 respectively—before they made the trip back to the pavilion. The other three batsmen contributed 9 runs between them, and with 16 extras 173 was telegraphed on the board when the last batsman was got out.

## FRIENDLY MATCHES.

## TAYLOR'S XI v. BIRD'S XI.

These teams played a ten-a-side match on the H.K.C.C. ground on Saturday and spent a very enjoyable time. Taylor's side put together 145 before their innings was closed, Spinks (66), Farthing (31), and Ling (24), being the chief contributors. Bird's side started well but the tail failed to keep its end up, and they were dismissed for 103, thus losing by 42 runs. Ewer's 33 and Webster's 24 were the best scores of the side, in bowling, Hope got three wickets for 35 runs and Bird three for 42. On Taylor's side Reed secured seven wickets for 46 runs, and had the best average.

## LEE'S XI v. PINNA'S XI.

A.C.R.C. Scratch XI captained by George Lee was at home on Saturday to a team captained by Mr. Pinna consisting of members of the Club de Racquet assisted by Omar and Jex of Craigengower. The visitors did very well and put together a pretty 150 before the side was dismissed. Omar with 38 runs and Pinna with 25 were the chief scorers. Ching bowled well for the Chinese and took five wickets for 46 runs. The Chinese started their innings badly, but the tail kept its end up, and batting carefully, managed to play out time and secure a draw with 146 runs to their credit. Lee's 55 not out was the top score. Pinna took five wickets for 51 runs.

## RUGBY.

## NAVY v. THE "REST."

Having won the Hongkong Rugby Challenge Cup with a total of 7 points to their credit, the Navy played an exhibition match against a XV chosen from the Club and the Army on Saturday, prior to the presentation of the trophy by the Hon. Mr. P. H. Holyoak, President of the Hongkong Football Club. The large crowd of spectators thoroughly enjoyed a fast and interesting game. The Navy turned out strong with Wodehouse in the threequarters line bar Hancock was absent, and was badly missed.

The stand was filled to its utmost capacity when the teams took the field.

Ralston started the game for the Rest soon after 3 o'clock, and his pack immediately made a beeline for Navy territory, but Beech was safe and cleared well. Wallace mis-handled a pass and gathering, Lindell dodged Mockridge and touched down close in. The try was taken from a difficult angle and was not converted. The Navy led by three points early in the game. From the centre the Navy again took the oval down the field up to the Club 25 where they carried the scrums and Lindell again broke through and touched down, this time very near the post. Thynne converted the try and the Navy was 8 up. After this the Rest played up better, and from a scrum in their territory, Dodginton broke away and went well down the Navy territory before he was brought to earth by Beech. Tomory, who kept pace with Dodginton throughout, gathered, and running in, scored a try, close in. Murray took the kick and had hard lines in sending the oval out. Soon afterwards the Navy converted another try, and half time arrived with the scores reading Navy 13 and the Rest 3.

Play in the second half opened in the Rest territory, but Tomory gathered and went away. He was almost through the defence before his career was checked by Beech. The Rest refused to be denied, and taking control of the game, kept the Navy busy in their own territory for well over ten minutes, during which time the defenders had to work hard to keep their cordon intact. In the course of a scrum close in, Smyth received from Emerson and swerving in, touched down. Murray again missed converting the try, and the Navy led by 7 points. The Navy pressed from the centre, and when well in, Thynne picked up and scored. The try was not converted, and the Navy led by 10 points. Immediately after the centre kick the Navy again got away and Wodehouse scored. Thynne converted. The scores now read: Navy 21 and Rest 6. The Navy kept up the pressure, and looked like scoring again when Lindell tried a dropped goal which just went under the bar. The final whistle came with the scores unchanged, the Navy winning comfortably by 15 points.

Mr. Wilson (H.K.F.C.) controlled the game.

After the match the Hon. Mr. P. H. Holyoak presented the cup to the Navy. In a short speech he said the cup, presented in 1910, was won by the Club in 1911, by the Garrison in 1912 and in 1913 and 1914 by the Club. Since 1914 another matter had to be attended to, and this was the first time it had been played for since the outbreak of war, and the first time the Navy had won it. He congratulated the Navy, and called for three cheers.

Cries of "Speech" were then heard, but the Navy, ever silent, contented itself by calling for three cheers for the Hon. Mr. P. H. Holyoak, which were heartily given.

## SHOOTING.

## POLICE v. DOCKYARD.

The Police Rifle Club yesterday met the Royal Naval Dockyard Rifle Club in an interesting encounter. Mr. Young of the Dockyard Club not attending, his side had a substitute, and the Police thereby had a lucky win. The following were the scores:—

## TRIANGULAR MATCH.

A triangular match shot off on King's Park Range between the H.K. V.D.C., H.M.S. "Alacrity" and the Wills "D" Coy. yesterday resulted in a win for the Volunteers and "Alacrity" over the Wills. The Volunteers have won all their matches up till now, and have to meet the "C" Co. Wills and H.M.S. "Carlew." It may reasonably be expected that they will win the League Championship. From the shooting in the League and considering the new conditions, Hongkong should stand an excellent chance of winning the Interport match. The scores were as follows:—

## VOLUNTEERS v. "TAMAR."

On Saturday the Volunteers met the H.M.S. "Tamar" on Stonecutters Range and again scored a success by 65 points. It looked at first as if the "Tamar" would have given the Volunteers a better fight. There was a very tricky breeze which increased up the range making shooting difficult at the longer ranges. This disposed of the most dangerous team the Volunteers had to meet for the League Championship. The scores were as follows:—

## K.C.C.

## GOLF SECTION.

The 1920 "Bogey" Competition was played yesterday on the Kowloon C.C. links. J. Parkes and J. Stalker each returned a card of 4 down. The course was very fast and a strong wind made a good score very difficult.

In connection with the fire in Bonham Strand, on Saturday, the ground floor of No. 145, where the outbreak originated, suffered damage to property to the extent of \$1,000. The premises, which were occupied by the Kwong Seng Loong foreign goods firm, were insured for \$2,000. The first floor of the house was unoccupied. The top floor, which was used in conjunction with house No. 143 to store paper, was damaged to the extent of \$1,500, and was covered by insurance for \$1,700. The whole house was insured for \$15,000.

## CORRESPONDENCE.

## CHARITIES.

[To the Editor of the "China Mail."]

Sir,—Now that quite a lot has been done by the Churches and in other ways for the collection of Funds for the Chinese Famine Fund, should not our thoughts turn towards Home and an effort be made to increase Lord Haig's fund for ex-Servicemen? Thousands of these men of all classes are in distress, keen to work, but owing to slackness in trade unable to find employment. Hongkong is still a British Colony, owing to their sacrifices and hardships. Have the Chinese in the Far East done all they can to help their fellow countrymen? Perhaps they have. Many thousands of dollars could have been saved at

## FALL IN COST OF LIVING.

LONDON, February 20th. The Ministry of Labour states that the cost of living in January was 14 per cent. below the December rate. The average level of retail prices in certain commodities, including food, rent, clothing, fuel and light, was 1 per cent. above the prices in July 1914, as compared with 133 per cent. on January 1st. The decrease was mainly due to reductions in the prices of several principal articles of food, also clothing.

## SINN FEIN INCENDIARISM.

LONDON, February 20th. The second successive week-end of incendiary fires started in Manchester district last night. The sinners are believed to be Sinn Feiners. They set light to huge farms. Farmers with outside assistance extinguished the flames. The places attacked were Altrincham, Crumpton, Chorlton-cum-Hardy and Northenden. Wood shavings and hay saturated with paraffin were found in different parts of the farms.

## CONSUMPTION CURE.

LONDON, February 19th. Dr. Addison, speaking at Exeter, denied that the Ministry of Health had sent a specialist to Geneva to investigate Dr. Frahm's serum cure for consumption. He added that he had already carefully enquired into the alleged cure and, in order not to raise unfounded hopes, he must state that much further investigation was necessary.

## CARDIGANSHIRE ELECTION.

LONDON, February 19th. The Cardiganshire by-election resulted as follows:—  
Mr. Evans (Coalition Liberal) 14,111  
Mr. Llewellyn Williams (Independent Liberal) 10,521

## TREBITSCH LINCOLN.

VIENNA, February 20th. The notorious Trebitsch Lincoln, ex-member of the British Parliament, has been arrested. It is alleged that he forced documents supporting allegations of a revolutionary plot against the Czechoslovakian Government.

## TO HELP EXPORTS.

PARIS, February 19th. The Government is contemplating various measures giving further facilities to export trade with a view to bringing relief to such industries as are suffering from the present business depression. —Havas.

## COMMUNIST DEFEAT.

PARIS, February 19th. A meeting of the Paris Employees' Union for election to the Board of Directors (of the Paris Labour Exchange) has again resulted in the defeat of the extremist Communist element. —Havas.

## VICEROY OF INDIA.

ALLAHABAD, February 19th. The Viceroy, who was proceeding to Calcutta, was held up near Allahabad by Non-co-operation extremists, and the train was not allowed to proceed. The Viceroy was compelled to return to Delhi.

## MOTOR SHOW FIRE.

DELHI, February 20th. Goods worth two lakhs of rupees were damaged in a disastrous fire at a motor show here. Many splendid cars were destroyed.

## CALCUTTA STRIKE RIOT.

CALCUTTA, February 20th. Violent scenes have taken place here in consequence of railway strikers opposing attempts to run cars. The strikers assembled outside the depot and assaulted willing drivers. The police arrived in motor-cars and were stoned. Some of them were injured. Subsequently, armed police were compelled to fire. One striker was killed and 4 had to be taken to hospital. Order was then restored.

## MARTIAL LAW IN HUNGARY.

VIENNA, February 20th. It is reported from Hungary that the Government, fearing a general strike, has proclaimed martial law. The political situation in Hungary has become much worse recently owing to reactionary Government measures affecting the liberty of the Press and the right to hold meetings.

## U.S. IMMIGRATION BILL.

WASHINGTON, February 20th. The Senate has adopted, without opposition, an amendment to the restrictive Immigration Restriction Bill reducing the number of aliens of any nationality admissible in the coming year from 5 to 3 per cent. of the number of persons of such nationality already in the United States. The Senate attacked the bill as amended, and it now goes to a conference representing both the Houses.

## ATTACKS ON GEORGIA.

LONDON, February 20th. It appears that the Soviet Governments of Armenia and Azerbaijan have combined to crush the Republic of Georgia, which has so far resisted the attempts to "bolshievise" it. Reuter's Constantinople correspondent reports that an Armenian attack on the Georgian Government from the south was followed by an Azerbaijanian attack from the east. Several Russian divisions, with cavalry, are advancing towards Tiflis. The Georgian Government has ordered the evacuation of the city. The British and French ministers and members of the foreign communities have already departed.

## NEW MARSHALLS.

PARIS, February 18th. General Yagor, Lavauty and Franchet d'Espèrey have been pronounced Marshals.

## EARLIER TELEGRAMS

(Reuter's Service to the China Mail.)

## NEW SECRETARY OF STATE IN AMERICA.

ST. AUGUSTINE (FLORIDA), Feb. 20th. It is announced that Mr. Hughes has agreed to accept the Secretaryship of State under Mr. Harding.

## ALLIED CONFERENCE.

LONDON, February 20th. On the eve of the Near Eastern and Operations Conference in London, Mr. Briand, in a statement to the Observer, says that while he does not overlook difficulties, he faces the forthcoming conference with the utmost confidence. The Paris conference has brought France and Great Britain nearer each other on essential questions. His task in this connection has been facilitated by his cordial friendship with Mr. Lloyd George enabling them to approach the thorniest problem without fear of fatal misunderstanding. France has no imperialistic ambitions. The Paris agreement showed that France is eminently reasonable. He is a resolute advocate of inter-allied solidarity politically and economically. "We shall see the end of the difficulties of peace as of war," says Mr. Briand, "but only if we walk hand in hand. The union of France and England is the keystone of that system."

## ANOTHER GERMAN GRIEVANCE.

LONDON, February 20th. The Germans complain that the time allowed to reply to the account of the Entente war losses rendered by the Reparations Commission is too short. It is semi-officially stated that the complaint is mistaken, as Germany is allowed till the beginning of April to express an opinion on the whole question, and this is sufficient time.

DUNSTADT, February 19th. Conferring with the Hessian Government, Herr von Simons emphasised the fact that the failure of the London Conference would mean the immediate enforcement of the penalties against Germany, which could only be enforced when Germany rejected the demands of the Reparations Commission with whom, according to the Peace Treaty, the decision lay. He therefore urged Germans strongly to support the Government's refusal.

In bidding farewell to the Reparations Commission, Mr. Bagdon, the United States representative, hoped that America would shortly be permanently represented on the Commission.

M. Dubois, president of the Commission, echoed the hope and declared it was unbelievable that the United States could have momentarily held aloof from the affairs and fate of Europe. America could not forget her sacrifices in the war and the solidarity uniting her with the Allies.

Sir John Bradbury, the British, Signor Ragel, the Italian, and M. Delacroix, the Belgian representatives also hoped that Mr. Bagdon would soon return. M. Delacroix said: "It is impossible to believe that, just when we are entering port and about to begin discussions which demand its assistance, the United States is abandoning us."

## IMPERIAL AFFAIRS.

LONDON, February 20th. The Observer agrees that the Dominions and India must be consulted as regards the question of Egypt, but the journal says that the delay over the question shows how much we lack the machinery to make a common consultation upon matters of general concern to the constituent nations of the Empire continuous and effective.

Referring to the "Melbourne paper's" doubts with regard to the Premier's statement that Empire defence should be a matter of Imperial concern, the Observer emphasises the fact that no party or prominent individual in Home politics is able to force the policy of Imperial concentration or saddle the Dominions with unwelcome responsibilities. No such proposal is ever likely to be made from Great Britain. The division of the colonial Office into two distinct parts will be the first step towards clarifying the Imperial position, but nothing definite is likely to be done before the Imperial Conference, when the Observer hopes, a small permanent secretariat will be established, the staff of which will be drawn from all the countries concerned. This will become the appropriate department, where by the Home and Dominion Governments will normally be kept in touch.

## JAPAN'S STATUS IN YAP.

LONDON, February 19th. A New York telegram says that the State Department has received unofficially the demand for the ex-German islands in North Pacific granted to Japan by the Peace Conference. According to the New York Times, the officials state that the United States does not regard the mandate as applying to the island of Yap, which President Wilson had specifically excepted by an unwritten agreement among members of the Supreme Council and reserved for disposal by the Communications Conference. It is understood that the opinions of the Allied representatives differ as regards the status of Yap. It is believed that Japan, whose position is said to be that she would yield to the objections of the United States with regard to Yap, provided that Great Britain allowed equal rights for Japanese nationals in the ex-German South Pacific islands now given by mandate to Australia and New Zealand.

PARIS, February 19th. The former Premier M. Painlevé delivered a lecture before the Institute for Higher Commercial Studies in Strasbourg on French expansion in China. M. Painlevé laid stress on China's immense possibilities and the unbounded field she is offering to all forms of French activity. —Havas.

CHANCELLOR OF HONGKONG UNIVERSITY. LONDON, February 19th. Sir William and Lady Brunyate have left for the Far East aboard the P. & O. s.s. Soudan.

CHAMBERLAIN'S COUGH REMEDY has been curing coughs and colds for the past forty years and has gained in popularity every year. What better recommendation is required? For sale by all Chemists and Storekeepers.

## FULL-BLOODED PEOPLE.

Why Other People Like Them.

We can all call to mind men and women who give such a sense of vitality and strength that they are bound to get on. A woman of this type—full-blooded, plump and bright-eyed—always has lots of friends. A man of the same kind always gets his own way.

The reason is that there is a natural wholesome tendency in all of us to appreciate health and healthy people, those with vigorous red blood in their veins, instead of thin watery bloodlessness. Often we remark that we envy them their vitality and keen interest in the affairs of life.

There is no need for envy if the bloodless delicate ones will pay attention to health and make good their deficiency of blood. There is sound advice in the suggestion that all such ailing men and women should begin without delay a course of Dr. Williams' pink pills for pale people, for the reason that these pills make the good red blood of health and give the high spirits, energy and attraction that go with it. If you are pale, anemic and nervous now, these pills will pull you up. The first promising sign will be a natural healthy appetite; then the headaches, feeling of weakness and aching in the limbs will disappear, and your nerves will become steady.

Now is the time to begin Dr. Williams' Pink Pills. Get a supply from any dealer; or direct and post free, \$1.00 the bottle \$2.00 for six bottles, from the Dr. Williams' Medicine Co., 95 South Street, New York.
